

Shopping Cart 7.0 is an ecommerce solution for a merchant who needs to sell but doesn't need advanced VGM features like inventory management, drop shipping, wholesaling, gift certificates, automated promotions, and customer product recommendations. Shopping Cart focuses on simplicity. Sell any product, including downloadable products like books on PDF.

Process credit card orders using more than a dozen North American and European Third-party Credit Card Processor like Authorize Net, Barclay, Vencash, and Realex. Every product has a highly detailed setup page, giving you complete control over the product's pricing, shipping, product images, inventory, color swatches, styles, and a whole lot more.

Shopping Cart 7.0 Main Features

- PCI Compliant
- Secure shopping cart
- Secure customer data retention
- Manage customers and customer orders
- Integrated with a number of popular third party credit card processors (AuthorizeNet, Vencash)
- Configure taxes and shipping costs for countries, regions, zones, and ZIP/Postal codes
- Set prices in more than a dozen major world currencies
