

# Voloper Global Merchant vs Shopping Cart Comparison

For merchants looking to accept online payments, Voloper offers two web store solutions: Voloper Global Merchant (VGM) and Shopping Cart. VGM is Voloper's full-featured, secure professional level web store. Shopping Cart offers online merchants a secure e-commerce solution but without VGM's "power user" features like inventory management, gift certificates, drop shipping, and various "up-selling" utilities.

Below is a comparison chart of default features resident in each web store solution as well as expansion options:

Feature	VGM	Shopping Cart
PCI Compliant		
Credit Card Processing		
Ability to create promotions		
Sell wholesale		
Sell to members only		
Track Inventory		
Sell via drop shipping		
Automatic FedEx, USPS, UPS, and Canada Post support		
Unlimited products		
Unlimited categories and sub-categories		
Customer registration		
Support multiple currencies		
Ability to limit sales by nation		
Setup taxes by country/state/region		
Calculate shipping automatically		
Allow customer reviews		

 Available with add-on module.
