

Publish your website's latest information updates, announcements, and company news with the next generation of the **News Manager Version 6.0**. NewsManager lets you create a full-powered content management service that features a familiar and consistent user interface, an easy-to-use Administration Panel that uses the best elements of our suite of

products, and a scalable platform that allows you to maintain an unlimited number of news categories and sub-categories.

News Manager v6.0 is a powerful content management solution that offers a wide range of out-of-the-box features, and is nimble and flexible enough to be up and running in no time, avoiding the costly development process.

Provide your site visitors and customers with a service that allows them to subscribe to the latest information updates from your website, at a click of a button! As a Site Administrator, you can easily manage the News Manager's category, news article and module settings through the Administration Panel, which has an integrated Web Content Editor (WCE), a powerful web-authoring tool that lets you manage the content of your web pages in a dynamic, WYSIWYG method.

What can the News Manager v6.0 do for your site? It contributes to your website's *stickiness factor*, encouraging your visitors to stay longer and revisit your site multiple times, leading to increased revenues, whether through advertising, product sales, or increased usage of your site's services.

NewsManager v6.0 Main Features

RSS Syndication: Build a loyal audience through a built-in RSS Syndication feature. Create one feed or split your news feed by category. You can include images in your feed to increase user attention and click thoughts.
